CHAPTER 1: Tips on Applying for Scholarships

8 Places to look for Scholarships	10
After you find some Awards	12
Getting a Head Start on the Application Process	13

CHAPTER 2: General Scholarships: Saskatchewan

Big Dig Scholarship deadline: December 3, 2010	16
Mathieu Da Costa Challenge deadline: December 10, 2010	16
1800Wheelchair Scholarship deadline: December 22,2010	17
Healthy Lifestyles Scholarship deadline: December 31, 2010	17
Youth Scholarship Program deadline: December 31, 2010	18
The Dupont Challenge deadline: January 31, 2011	18
Future Aces Foundation Scholarship deadline: January 31, 2011	19
RBC Royal Bank Scholarships deadline: February 1, 2011	19

20	Dalton Camp Award deadline: March 15, 2011
20	Leonard Foundation Scholarships deadline: March 15, 2011
21	Sears High School Design Competition deadline: March 25, 2011
21	Terry Fox Memorial Scholarships deadline: June 30, 2011
22	The Scholarship for Aboriginal Canadians deadline: June 30, 2011
22	The Scholarship for Visible Minorities deadline: June 30, 2011
23	Tommy Douglas Scholarship deadline: June 30, 2011
23	BBG Communications Scholarship deadline: June 30, 2011

CHAPTER 3: Saskatchewan University Specific Scholarships

26	Campion College
28	Cumberland Regional College
30	First Nations University of Canada

Luther College	32
North West Regional College	34
Parkland Regional College	36
Saskatchewan Indian Institute of Technologies	38
SIAST	40
Southeast Regional College	42
St Thomas More College	48
The University of Regina	52
The University of Saskatchewan	60

CHAPTER 4: Career Profiles

Aircraft Mechanics and Aircraft Inspectors	68
Architects, Urban Planners and Land Surveyors	69
Auditors and Accountants	70
Authors and Writers	71
Automotive Service Technicians	72
Carpenters	73
Civil Engineers	74

75	Computer and Information Systems Managers
76	Computer Engineers
77	Computer Network Technicians
78	Computer Programmers
79	Concrete Finishers
80	Construction Managers
81	Crane Operators
82	Dental Assistants
83	Editors
84	Electrical and Electronics Engineers
85	Electricians
86	Firefighters
87	Graphic Designers and Illustrators
88	Heavy-Duty Equipment Mechanics
89	Industrial Electricians
90	Information Systems Analysts and Consultants
91	Instructors of Persons with Disabilities
92	Interior Designers

Legal Secretaries	93
Librarians	94
Mechanical Engineers	95
Medical Laboratory Technicians	96
Medical Radiation Technologists	97
Occupational Therapists	98
Paralegal and Legal Assistants	99
Pharmacists	100
Photographers	101
Physical Science Professionals	102
Physiotherapists	103
Plumbers	104
Police Officers	105
Psychologists	106
Public Relations and Communications	107
Refrigeration and Air Conditioning Mechanics	108
Nursing	109
Sales, Marketing and Advertising Managers	110
Secondary School Teachers	111

112	Software Engineers and Designers
113	Specialists in Human Resources
114	Technical Occupations in Dental Health Care
115	Translators, Terminologists, and Interpreters
116	University Professors
117	Web Designers and Developers

Tips on Finding and Applying for Scholarships

Do you need a Scholarship?

Tips provided by **StudentScholarships.org**

Tips on How to Find Scholarships

Finding resources to attend post-secondary studies isn't that difficult. However, it takes time and effort to look for awards. There is no simple click that will point you to all the funds available and there is no comprehensive book to tell you everything.

If you spend the time, you will be paid for the work you put into it. Even if you only spend one day looking for awards, you may end up with a \$500 award. That is pretty good for one day of work.

The most important thing to always remember is that if you don't apply, you won't receive anything.

8 Places to Look

1. High School

Visit the Guidance Counselor's office. They usually receive resources from many donors and an experienced counselor can be invaluable to your search.

2. Institution of Study

Another good place to start is at the school where you intend to enroll. Every post-secondary institution has an Awards Program. Most have their awards listed on their website.

Many awards at the institutions do not get enough applicants simply because students have left it to the last minute. Most institutions make an effort to post their awards well ahead of the deadlines. Once you have enrolled in a particular institution, make sure you pay attention to the emails the college awards office will send you.

3. Local Community

Often local awards will not be found on the internet. These awards are generally offered through community clubs, charitable foundations, local employers, and community organizations.

Do you need a Scholarship?

Tips provided by **StudentScholarships.org**

4. Your Employer or your Parent's Employer

Many companies offer programs for employees and employees' dependents as part of their benefit package. Ask your parents. Students who work part-time should also check with their own employer.

5. Professional Organizations

Professional organizations want to promote their profession. Many national groups have local affiliates, so always check locally and nationally. See what they have to offer. For example: A.P.E.G.G.A, an engineering association, offers many scholarships for students interested in Engineering.

6. Industry

Think about where you would seek employment upon completion of studies. Many industries offer awards to encourage development of a skilled workforce. You don't have to work for the company offering the scholarship, simply take advantage of the opportunity to apply.

7. Specific to Ethnic Origin or Citizens with Disabilities

Many companies and organizations offer awards to assist specific students. If you are of aboriginal ancestry there are many awards established to assist aboriginal students. There are also many awards offered through organizations that support citizens with disabilities. Check with your local support organization or their affiliated national websites.

8. Internet

There are several different ways in which you should use the internet in searching for awards.

Google Search

Remember that when you are using a search engine, such as Google, you need to be as specific as possible. For example, if you are looking for scholarships for engineering, you should be searching for "Engineering Scholarships" or "Scholarships for Engineering".

Do you need a Scholarship?

Tips provided by **StudentScholarships.org**

Tips on How to Find Scholarships

The more specific your search, the more likely you are to find scholarships quickly. Another great example would be to include the country or province you are from in the search. For example, if you are looking for scholarships for engineering, you should be searching for “Canadian Engineering Scholarships” or “Scholarships for Canadian Engineering Students”.

2. Scholarship Databases

There are several websites devoted to collecting and sorting through scholarships on the internet. Our preference is obviously Studentscholarships.org, but there are several other search engines that will help during your search. Some of the sites include:

- A) www.studentscholarships.org
- B) www.saskatchewanscholarships.ca
- C) www.ammsa.com
- D) www.nursingscholarships.ca
- E) www.nupge.ca/scholarships
- F) www.engineeringscholarships.ca
- G) www.listofscholarships.ca

After you Find some Awards

If you are unsure about some of the qualifications of the award you have found, write or email the possible donor(s). Do not call. Make your letter short and to the point; just identify yourself and request information and an application. If you are writing, enclose a stamped, self-addressed envelope for a quick response.

Before contacting the donor, ensure that the information can not be found online. In most instances, answers to your questions can be found online.

Pay Attention to the Deadlines

Don't apply for awards at the last minute or when you are bogged down with term papers and homework. You won't feel like putting in the effort and your applications will likely reflect that.

Do you need a Scholarship?

Tips provided by **StudentScholarships.org**

Getting a Head Start on the Application Process

As early as possible, prepare a portfolio to include:

1. Typed statement of extra-curricular and community involvement.
2. Typed statement of your education and career goals
3. Academic record: transcripts, statement of grades, test scores
4. Personal Accomplishments: certificates of recognition, participation awards
5. Letters of reference that speak to community involvement
6. Letters of reference that discuss your extra-curricular activities.

Academics aren't everything

There are many awards that are given based on community involvement, satisfactory academic standing, ethnic origins, specific interests, financial need, etc.

Most Importantly

Our advice is to apply, apply and then apply some more! If you do not receive an award right away, don't be discouraged. Intensify your search. Keep a record of all awards and bursaries you apply for and reapply each year.

General Scholarships Sask. High School Students

Scholarships for High School Students

Scholarships provided by **StudentScholarships.org**

Big Dig Scholarships

Organization: Antique Trader
Scholarship Amount: \$3,000
Number of Awards: 1
Deadline: December 3, 2010

To be eligible for the Big Dig Scholarship you must be currently in Grade 12 or in your first year of college/university sometime in 2011. You also must submit a short essay.

Question:

In 200 years, one of your relatives is going to be digging in what is now your backyard. They are going to find something that you buried in 2011 and it is going to put any financial worries they have to rest.

Your job today is to decide what to bury. Your goal is to find something that will have immense value in the future. The item you choose to bury today must:

1. Be currently sold in a store today
2. Be under \$500

Write an essay that is between 500 - 1000 words. Be sure to answer all of the following questions in your essay:

1. What is the item you are going to bury?
2. Where could you purchase the item today?
3. How much does the item cost?
4. What made you choose this item?
5. Why do you believe that the item will have immense value 200 years from now?

Essays will be graded primarily on originality and depth of content. Grammar, punctuation, and spelling will play a small factor.

Mathieu Da Costa Challenge

Organization: Citizenship and Immigration Canada
Scholarship Amount: \$1,000
Number of Awards: 3
Deadline: December 10, 2010

1. Are you between the ages of 9 and 18?

If so, you can participate in the Mathieu Da Costa Challenge.

What do you have to do?

Create an original piece of writing or artwork that celebrates the contributions made by Canadians of Aboriginal, African or other ethnocultural backgrounds to the building of Canada.

2. You can enter the Challenge in any of the following categories:

- A) Original piece of writing in English;
- B) Original piece of writing in French; and
- C) Original piece of artwork.

With Canada as one of the world's most culturally diverse countries, with citizens from more than 200 ethnic backgrounds, you are sure to find some inspiration!

Since the winners of this year's Mathieu Da Costa Challenge will receive a trip to Halifax to attend the Canada Winter Games in February 2011, you may wish to highlight the contributions made by a Canadian athlete in your entry.

We have compiled a list of potential subjects to help inspire you and get you started. Of course, there are MANY other individuals that you can choose to highlight.

Healthy Lifestyles Scholarship

Organization: Stay Fit
Scholarship Amount: \$5,000
Number of Awards: 1
Deadline: December 31, 2010

To be eligible for this scholarship you must:

- A. As of December 31, 2010 deadline, be under 25 years of age
- B. Be currently a senior in high school or in your first year of university or college
- C. Be a resident of Canada or the United States
- D. Answer two essay questions.

Essay Questions:

1. In under 1000 words:
"Why is a healthy lifestyle important in school?"
2. In under 500 words:
Describe your career plans, goals and personal ambitions.

To apply for the Healthy Lifestyles Scholarship, please write your scholarship essay in Microsoft Word or, if you do not have Microsoft Word, in Google office, the latter is free to use on the Internet. After you are finished the writing process, please attach it to an email and send it to:

studentaward@fitnessexercises.tv.

Youth Scholarship Program

Organization: Nicodemus Wilderness Project
Scholarship Amount: \$850
Number of Awards: 3
Deadline: December 31, 2010

Three scholarships totaling \$850 will be awarded annually to the authors of the top Apprentice Ecologist essays. By registering and submitting your essay, you will automatically be considered for a scholarship. Be sure to include your full contact information (always private) when registering so that we can process any scholarships/awards that you may win. Scholarships are available to any student (ages 13 to 21) who is a candidate for a degree/diploma at a primary, secondary, or accredited post-secondary educational institution from any country around the world.

Here's how to become an official Apprentice Ecologist and apply for a scholarship:

1. Conduct your own local environmental stewardship project.
2. Take a few digital photos of your project in action.
3. Write an essay about your project and what it meant to you.
4. Register and upload your favorite project photo along with your essay.

Examples of projects that other Apprentice Ecologists have completed in the past include:

1. Removing and recycling trash from a local park, river, beach, or other natural area
2. Planting native trees at a school, local park, or in a deforested area
3. Starting a community or school recycling program
4. Protecting a terrestrial or aquatic area for native wildlife

The Dupont Challenge

Organization: Dupont
Scholarship Amount: \$5000
Number of Awards: 6
Deadline: January 31, 2011

What interests you in the exciting and ever-changing world of science? Where do your interests lie and what subjects would you like to explore in greater detail? What application of scientific thought or research do you believe can help solve some of the challenges of today's complex world? What kind of technology fascinates you? What future uses do you see for an improved version of existing technology? And where in the world of science might YOU fit in? Could a career in one of the sciences or in applied sciences await you? Think about it—write about it.

The DuPont Challenge Science Essay Competition gives you an opportunity to put your thoughts on paper—not only expressing yourself, but also sharing your ideas with others. The only limits—besides the contest's 1,000-word limit and other important rules—are your own enthusiasm, your research, and your interest in studying and presenting a fascinating aspect of science or technology.

Future Aces Foundation Scholarship

Organization: Future Aces Foundation
Scholarship Amount: \$1,000
Number of Awards: 30
Deadline: January 31, 2011

Annually, the Herbert H. Carnegie Future Aces Foundation offers scholarships to students from across Canada who exhibit exemplary citizenship qualities and who are in need of financial assistance to further their educational goals.

To apply students must meet the following criteria:

1. Be a Canadian resident
2. Pursuing post-secondary education or training
3. Be between the ages of 16-24
4. Meet the service and financial criteria

The due date for submissions is the last day in January each year.

Teams of Scholarship Committee Members assess the application forms in February. All decisions of the Committee Members are final.

In April each recipient is honoured at our Scholarship Reception with a citizenship award and a minimum one thousand dollar (\$1000) scholarship.

To date, the Foundation has granted more than \$420,000 in scholarships.

The scholarships are funded and supported by contributions from businesses, community organizations, and individuals. The proceeds from our two major fundraisers, our gala and golf tournament, help support this project.

More Info:
<http://www.futureaces.org/>

RBC Royal Bank Scholarships

Organization: Royal Bank of Canada
Scholarship Amount: \$10,000
Number of Awards: 4
Deadline: February 1, 2011

Who Can Apply?

1. Students who are in their graduating year of High School or CEGEP students who will be enrolled full-time in a publicly funded Canadian university or college in the Fall 2011 academic term
2. Undergraduate students enrolled full-time in a publicly funded Canadian university or college in the 2010/2011 academic year
3. Students with a disability who attend or are planning to attend post-secondary school on a part-time basis. Please see terms and conditions
4. Minimum cumulative GPA equivalent to a 70% average
5. Canadian Citizens or Permanent Residents

Employees, directors, and officers of Royal Bank and its subsidiaries and its scholarship administration agencies and those with whom they are domiciled are not eligible for the RBC Royal Bank Scholarship for Undergraduates.

When can I apply?

Applications are accepted starting on September 15, 2010 at noon EST. All applications are to be submitted online.

What is the Deadline?

Deadline for applications: Tuesday, February 1, 2011 at 6:00 p.m. EST.

Scholarships for High School Students

Scholarships provided by **StudentScholarships.org**

Dalton Camp Award

Organization: Friends of Canadian Broadcasting
Scholarship Amount: \$1,000 - \$5,000
Number of Awards: 5
Deadline: March 15, 2011

1. Any Canadian citizen or permanent resident of Canada may enter this essay contest except members of the Friends of Canadian Broadcasting Steering Committee, retained consultants or business associates, and members of the Selection Committee; as well as their immediate family members. Previous winners are ineligible.

2. Essays shall be written in English, and shall not exceed 2,000 words in length.

3. Essays shall be submitted using one of the following two methods:

A. Completing the online submission form located at <http://www.friends.ca/DCA/essay-submission>. Please ensure you have saved a copy of your essay prior to using the form; OR

B. Sending a double-spaced Microsoft Word format document as an e-mail attachment to the following address: submissions@daltoncampaward.ca.

4. To be eligible, essays must be received before 8:00 pm EDT on March 15th, 2011. Entries will be acknowledged upon receipt.

5. Friends of Canadian Broadcasting will not enter into communication with entrants, other than to acknowledge receipt of an entry at the time of submission.

More Info:
<http://www.friends.ca/DCA/rules>

Leonard Foundation Scholarships

Organization: Leonard Foundation
Scholarship Amount: \$2,500
Number of Awards: 140
Deadline: March 15, 2011

1. The Leonard Foundation scholarships are awarded to students enrolled or enrolling in an accredited undergraduate degree program in a College or University in Canada. The institutions must be open to all without restriction except for an academic standard. Applicants must be Canadian citizens or landed immigrants.

2. Students must be enrolled in their first undergraduate program as a full-time student. A student is considered to be full-time if he/she has enrolled for a program's full year credit. Only students pursuing a B.Ed or M.Div are eligible for continuing support.

3. All applicants will be considered but preference will be given to daughters or sons of ordained clergy, licensed elementary or secondary school teachers, Canadian military personnel, graduates of a Canadian Military College, members of the Engineering Institute of Canada and members of the Mining and Metallurgical Institute of Canada. Preference is also given to those who have previously received an award from The Leonard Foundation.

4. The value of the award is usually \$1,000.00 for those who do not need to set up a second residence to attend university and \$1,500.00 for those who do. These amounts may vary according to the final decisions of the General Committee. Approximately 140 awards are made annually.

5. Successful applicants are expected to obtain employment during free time to help defray the costs of their education. In addition, they must participate regularly in athletic, fitness or military activities. Personal qualities showing a potential for leadership are also a requirement.

Scholarships for High School Students

Scholarships provided by **StudentScholarships.org**

Sears Canadian High School Design

Organization: Design Exchange/Sears Canada
Scholarship Amount: \$250
Number of Awards: 12
Deadline: March 25, 2011

Design Exchange is proud to announce the 16th Annual Sears Canadian High School Design Competition. The aim of the competition is to promote the study and awareness of various design disciplines in schools across Canada. The competition is open to all high school students, at the junior (grades 10 and below) and senior (grades 11 and above) levels. Prizes will be awarded at the two levels, in each of the four categories – Industrial Design - Task Light, Fashion Design - Reclaimed T-Shirt, Architecture / Interior Design - Refueling Station, and Graphic Design - 2011 Competition Certificate.

Students can work individually or in teams, though the numbers in each team will be taken into consideration by the judges. Students may submit more than one entry as long as they are in separate categories.

All entries will be judged in April 2011 by a panel of professional designers and / or design educators. If the design entries do not meet the requirements, the panel reserves the right not to award a winner for that category. All decisions made by the panel are final.

Saskatchewan Universities: Scholarships and Profiles

Campion College

University Profiles provided by StudentScholarships.org

About

Campion College was established in 1917 with foundations in the Jesuit and Catholic tradition of education. It was named after the Jesuit scholar and priest, St. Edmund Campion. In 1964, it became federated with the University of Saskatchewan, Regina Campus, which is presently known as the University of Regina. Students who attend Campion are also fully accredited students of the University of Regina. The college believes that education does not stop when classes are over, and they abide by the Jesuit's philosophy of "Cura Personalis," or Care for the Whole Person.

Quick Facts

TUITION: \$4,200
STUDENTS: 900

Student Services and Student Life

The University offers students Academic Counselling, Academic Support, Scholarships, Campus Ministry, Headstart Orientation Program, Fee Payment, Student Activities & Organizations, Campion College Students' Union (CCSU), Co-operative Education work experience, Student pub, Bookstore, Computer Centre, Physical Activity Centre, Daycare facilities, Intramural sports, Employment services, Cougar intervarsity athletics, Special lectures, and Fine Arts activities.

All Campion students are member of the student union. The Campion College Students' Union (CCSU) promotes fellowships among students and gives them the opportunity to experience fun and diversity during their stay inside the college. For students who want to be a part of a group, they can join some of the diverse and varied social clubs and associations offered by the University of Regina.

Campus: Facilities, Residence and Location

Campion's main campus is located in one of the biggest urban parks in North America. It offers students a library with extensive collections, diverse student services, and a chapel. There are also renovated first floors with internet terminals and a coffee shop as part of the expanded lounge. In addition, students have complete access to all the facilities of the University of Regina. The University offers single students dormitory and apartment residences in the campus. They can choose from among the residence buildings available at the University of Regina, such as the College West, which contains the university bookstore, La Residence, for French-speaking students, Luther College Residences, and the North and South residences.

Campion College – Scholarships

Scholarships provided by **StudentScholarships.org**

The Paul and Carol Hill Scholars in Catholic Studies

Value: \$500-\$1,000

The Paul and Carol Hill Scholarships in Catholic Studies are awarded each fall to full-time Campion students who have declared themselves as minors in the Catholic Studies program. Up to ten scholarships are awarded each year. Students must have a minimum UGPA of 70%; entering students must have a minimum high school average of 80%.

Preference will be given to graduates of Athol Murray College of Notre Dame in Wilcox, Saskatchewan. Scholars will receive \$500 for one course that satisfies the requirements of the minor in Catholic Studies, or \$1,000 for two or more such courses in a single semester. A maximum of \$2,500 per student may be awarded over the student's program.

The Kramer Ltd. Foundation

Value: \$5,500

This scholarship is made possible by Mr. and Mrs. Don Kramer and their family. It is designated for first-year Campion students from rural Saskatchewan. The applicants must have a minimum 80% average from high school and must be registered in 15 credit hours.

The Jesuit Fathers Entrance Bursaries

Value: \$500

Number of Awards: 2

Criteria:

These bursaries are awarded to first-year Campion students with a minimum 75% average from Grade 12, and are based on financial need, academic achievement, and extra-curricular activities.

The Harold J. Leibel Family Entrance Scholarship

Value: \$2,000

Number of Awards: 2

Criteria:

This scholarship, established by Harold and Shirley Leibel and family, is awarded to a first-year Campion student with a minimum 80% average from Grade XII. The scholarship is based primarily on academic achievement, but the applicants' financial need and extra-curricular activities will also be taken into consideration. Applicants must be residents of Saskatchewan and must be registered in 15 credit hours.

The Stuart Lefebvre Memorial Bursary

Value: \$1,000

Number of Awards: 2

Criteria:

This bursary is in memory of Stuart Lefebvre, a Campion Science student who was a shining example of courage and determination in his life-long battle with cancer and the complications from its treatment. Established by his family and friends, it is awarded annually in the fall to a Campion student (either senior or entrance) who has faced serious illness, disability, or other major life challenge, in the same spirit. Financial need is not the primary criterion, but will be considered. Applicants must have a minimum average of 65%, must be registered in at least two classes, and must provide a letter of support from someone, outside the family, familiar with their situation.

Cumberland Regional College

University Profiles provided by StudentScholarships.org

About

The creation of Cumberland Regional College began in the summer of 1974 in response to the Department of Continuing Education's need to establish "a rational and coherent system of post-school learning in Saskatchewan." That same year, four community college developers were tasked to establish four project college development areas, and their success gave way for the province to embrace the college system and create more of them. Cumberland was a by-product of these prior developments, and it began as a northeast Saskatchewan community college.

Student Services and Student Life

CRC offers the following student services: Personal, academic, financial and career counseling; tutorial assistance and study skills workshops; admission and registration assistance; sponsoring agency advocacy; access to computer labs, internet access; assistance with preparing a resume or improving interview skills; interest tests to help determine course of study; entrance testing for various academic programs; and exam invigilation. Students can also access the Technology Enhanced Learning (TEL) services and equipment in the school's Learning Centres in Tisdale, Nipawin, and Hudson Bay. They include features such as: High speed internet, Computer access, and email; videoconferencing facilities in the Melfort, Nipawin, Hudson Bay, & Tisdale areas; electronic whiteboards at Nipawin, Hudson Bay, Tisdale, and Melfort; Web Conferencing and Content Management Systems for online courses; study or discussion groups; study skills workshops; academic and career counselling; and tutorial support.

Campus: Facilities, Residence and Location

Cumberland consists of four campuses: Melfort Campus, Nipawin Campus, Hudson Bay Campus, and Tisdale Campus. The 1990's was a year of expansion for the College, consisting of an agreement with Saskatchewan Communications Network to oversee four receiving sites in the region. Major renovations also took place at the Melfort Unit Comprehensive Collegiate for the Community Education and Adult Education programs. Its Multimedia Career Resource Centres include access to multimedia career resources and online programs, pamphlets and brochures on educational programs and career opportunities, up-to-date information on employment prospects and labour-market trends, and calendars from many educational institutions across Canada.

First Nations University of Canada

University Profiles provided by StudentScholarships.org

About

The First Nations University of Canada, once called "The Saskatchewan Indian Federated College," was established in 1976, when the Federation of Saskatchewan Indian Nations became a federate college of the University of Regina. The goal of both schools was to "serve the academic, cultural and spiritual needs of the First Nations' students." The University changed to its present name in 2003.

Successful applicants will be paid in two equal installments: First installment to be paid in November, and second installment to be paid in February as per continued academic excellence.

Luther College

University Profiles provided by StudentScholarships.org

About

Luther College was established in January 1914, under the management of Henry Schmit. The number of male students who registered during that time was 32, and the money used to construct its dormitories, three classrooms, library, kitchen and dining area were all derived from the donations to the school. It only started accepting female students in 1920. Today, the College strives to maintain a Christ-inspired atmosphere while helping students learn and achieve high standards of academic performance.

Student Services and Student Life

The College offers students First Year Student Orientation, Residence Living, Academic Support, Transit (students are given bus passes that allow them to use two alternative routes that pass the University), Convocation (students who have completed their programs will attend a graduation ceremony), Academic Advising (exams, Online writing labs, UR self-service), and the Luther Leader Ambassador Program (students gain valuable volunteer experience).

The Luther University Students Association (LUSA), one of the largest associations in the campus, represents the residents and students of the Luther College. It aims to create events that can enhance the students' experience and encourage strong bonds with everyone. There are three membership categories in LUSA: Active Member, Alumni Member, and General Council Alumni. The Active Member is any registered student who is taking at least two credit classes at the University. The Alumni Member is anyone who was formerly an active member and wants to continue their membership as alumni. General Council Alumni is any former member of the General Council who is taking at least two credit classes as a post-secondary student.

Luther College has a long tradition of athletic history. The campus offers students Softball, Track And Field, Cross-Country Running, Hockey, Curling, Baseball, Basketball, Soccer, Volleyball, Golf, and Football. It is also home to the longest-running basketball tournament in Western Canada -- the Luther Invitational Tournament.

Campus: Facilities, Residence and Location

The campus is academically federated with the University of Regina, and is situated in the Corner of East and North University Drives that adjoin the University of Regina Campus. It has 19 full-time and 21 part-time faculty this 2009. Its Library, the Luther College Library, has a seminar room available for study groups and smaller classes (and it comes with TV, VCR, and multimedia computers). The library also offers students laser printers that are networked to all computers, so it is easier to print off Word documents and Internet materials. There are also Laptop Internet Connections and Photocopying machines. Students who wish to live inside the campus can enjoy the 219 dormitory-style, single-occupancy rooms open to all post-secondary students. Here, students can enjoy a 10 to 15 minute walk to the labs, classrooms, fitness/sport facilities and libraries. Because the college is small, the College no longer requires the students to give a residence application fee.

Luther College – Scholarships

Scholarships provided by **StudentScholarships.org**

Luther College Entrance Scholarships

Value: \$750
Number of Awards: 2 +

Criteria:
Awarded to entering students with a scholarship average of 80% or higher. Recipients of the Centennial Merit or Centennial Merit Plus scholarships are not eligible for this award.

Student Services and Student Life

The College offers the following services: Career Counselling, Business Services, Career Development or Planning, Career Cruising, Choices Planner, Typefocus, Next Steps, Monster, Sask Job Futures, JobBoom, Canadian Careers, Labour Market Information, Schoolfinder, Saskatchewan Apprenticeship and Trade Commission, Canada-Saskatchewan Student Loan Program, Sask Network, Scholarships Canada, Workopolis, Career Owl, and Indeed Canada. The Career Counselling Services is free to all the students of NWRC, and it's a valuable aid to the student in getting resources and assessment tools that can help them determine their career goals. This service is complimented with the latest computer technology and paper assessments for determining a student's personality, ability, value, and interests. The Career Development process used by the College includes: Personal Exploration, Work Exploration, Career Decision-Making, Implementation, and Workplace Success.

Campus: Facilities, Residence and Location

North West has two campuses: Battlefords Campus and Meadow Lake Campus. Battleford Campus borders the beautiful Centennial Park. It is North West's head office, and it is connected to the Comprehensive High School, which is a place for university and non-credit training, technical programming, and academic upgrading in northwestern Saskatchewan. Meadow Lake Campus provides state of the art educational facility (North West Post-Secondary Centre), and it is continuously growing as one of the students' choice in trades training and universities. Students can also take advantage of St. Walburg Adult Education Centre and the Spiritwood Adult Education Centre, where students are guided in achieving their academic goals. It also provides televised university and SIAST courses aside from its computer courses.

Saskatchewan Indian Institute of Technologies

University Profiles provided by **StudentScholarships.org**

About

Saskatchewan Indian Institute of Technologies is an educational institution of the Federation of Saskatchewan Indian Nations. It was established in 1976, which offered education and training programs to Saskatchewan's First Nations adults. Its previous name was Saskatchewan Indian Community College, but later changed to its present name in 1985. SIIT became one of the post-secondary institutes that are controlled by First Nations in Canada, and today the Institute serves as First Nations' provider of technical employment, educational services for continued career growth, and vocational programs.

Student Services and Student Life

The Institute helps students succeed in their academic goals through support, advising, counseling, and planning. New, returning, and transfer students are given orientation sessions to acquaint them about necessary information, such as registration requirements, student status, financial aid assistance, testing, campus or community facilities, and study skills. For counseling services, students are encouraged to visit the Elders for advice; and for social activities, students are highly encouraged to join the extra-curricular activities provided by the Institute, such as fund-raising activities, guest speaking, or becoming a part of the graduation committee.

SIIT offers the following programs to its students: ACADEMIC PREPARATION (Pre-Adult 10, Adult 10, and Academic Secondary Education Adult 12); HEALTH AND COMMUNITY STUDIES (Certificate in Aboriginal Employment Development, Community Health, Community Services Addictions Certificate, Community Services Addictions Diploma, Educational Assistant, First Nations Child Care, First Nations Home Child Care Provider, First Nations Orientation Day Care, First Nations Orientation to Headstart, Health Care Aide, Practical Nurse Preparation, and Practical Nurse); MANAGEMENT STUDIES AND INFORMATION TECHNOLOGY (Accounting, Information Technology Diploma, Business Administration-Certificate Level, Business Administration-Diploma Level, Office Administration Certificate, and Program and Transfer Guide); TRADES AND INDUSTRIAL (Apprenticeship, Construction Trades, Carpentry Level I (Apprenticeship) Program, Construction Worker Preparation, Welding Applied Certificate, Heavy Equipment Operation, Process Operation Technician I/II, Industrial Career Development, and Women in Trades); PROFESSIONAL DEVELOPMENT OR TRAINING (Governance Training Centre, Applied Certificates in Workplace Management, and Workplace Management Certificate).

Campus: Facilities, Residence and Location

Presently, Saskatchewan Indian Institute of Technology has nine campuses. SIIT boasts of certified programming (collaboration with other provincial universities and other educational schools to give two-year diplomas); partnering with industry (partnerships with employment and industry sectors that can help deliver trainings programs for the employment of its graduates); academic preparation (diverse academic and personal upgrading options are given to First Nation students, which can range from literacy programming to post-secondary preparatory programs); and out of the province delivery (programs of SIIT are delivered to potential First Nations students outside of Saskatchewan).

Southeast Regional College

University Profiles provided by StudentScholarships.org

About

Southeast Regional College was founded in 1975 as a part of Saskatchewan's new college system. Originally named South East Region Community College, the college changed to its present name in 1987 after following the proclamation of the Regional Colleges Act. The College believes that every person should be given the opportunity to learn; programs should be community-based; flexibility and innovation are valuable; professional and positive environments are important; and that people are to be respected.

Student Services and Student Life

The Student Services is responsible for the retention programs and student recruitment at the college. It also supports the Newman Centre, Development & Peace, STM Newman Choir, Pre-Law Club, Newman Players, Media Residences, Knights of Columbus College Council #10580, and the Pre-Education Club. The campus also manages student scholarships and the Ogle Hall Residence.

Campus: Facilities, Residence and Location

STM has a newly renovated auditorium --- the Fr. O' Donnell auditorium which is home to the Keenan Lecture series, Mohyla Lecture series, Friends of Sophia lectures, the STM Gala, and other great events. The auditorium has a performing arts theatre (Newman Players Amateur Theatre Group) and an equipped classroom with available multimedia resources. The Art Gallery is located just outside of the Library, and it usually displays seven monthly art shows. The cafeteria has a food service -- Choice on Campus, and they provide low cost meals to students. The cafeteria is also a great place to hold social activities. The chapel has a number of art works by William Kurelek Mural and Lionel Thomas. The Murray Room is the student lounge behind the cafeteria. It has comfortable furniture, computers and television.

4. Baccalauréat en Education Française

Selection will be based on academic standing, contributions to school and/or community life, and extra-curricular skills and interests.

The University of Saskatchewan

University Profiles provided by **StudentScholarships.org**

About

The University of Saskatchewan is a coed public university. It started as an agricultural college in 1907, and became a Canadian university in 1910. Its logo is a book of knowledge and three wheat sheaves inside a green shield. On its pages is the Latin phrase and motto: Deo et Patriae, which means "God and Country".

Student Services and Student Life

The University of Saskatchewan has the following facilities inside the campus: Griffiths Stadium and Associated Fields; R.D.J. Williams Building and Associated Fields; Physical Education Center (Campus Recreation Office, Change Rooms, Free Weight Room, Physical Education Equipment Room, Physical Education Gymnasium, and Physical Education Pool) and Education Building and Associated Fields (Tennis Courts, Fit Center, Education Pool, Education Gymnasium, Education Equipment Room, Change Rooms). The university also has a student publication named The Sheaf. It is a weekly newspaper that helps students stay informed of campus and community events. Its internet radio station is CJUS-FM.

There are many student organizations and clubs inside the university. Students who are into Arts can join the Wind Orchestra, University Chorus, U of S Ballroom Dancing Club, Theatre Camps, School of Dance, Other Music Ensembles, Music Theatre, Jazz Ensemble, Greystone Theatre, Greystone Singers, Department of Music, Department of Drama, and Concert Band. They can also join student groups such as: Campus Clubs, Edward's School of Business, Greystone Scholars Society, Indigenous Students Council, International Student Associations, and St. Thomas.

Campus: Facilities, Residence and Location

Saskatchewan has a lot of places where students can stay during the course of their study at the campus. The Voyageur Place Room, once called the University Hall, is an example of this. It was organized on the house system where residences were named after Saskatchewan's early explorers. The first three male houses were the Hearne House (Samuel Hearne), Kelsey (Henry Kelsey), Lav (Pierre Gaultier de Varennes, sieur de La Verendrye). For females, there were Pond (Peter Pond), Henday (Anthony Henday), and Palliser (John Palliser) Today, Voyageur has four separate halls: Saskatchewan Hall, which was completed in 1912 and considered to be the first residence in the campus. It can house 150 students. Another hall is Qu'Appelle, whose original name was Student's Residence Number 2. It was opened in 1916. The Athabasca Hall has 270 residences, and this co-ed hall was named after the Athabasca River. Another residence complex in the southern part of the university is McEown Park. It has Souris Hall, Assiniboine Hall, Wollaston Hall, and Seager Wheeler Hall. Last February 2009, the government gave Saskatchewan \$15 million as funding for additional residence buildings adjacent to McEown Park. Full occupancy will be on 2011.

6. Provide documentation attesting to the relationship between the candidate and the owner named in the tax assessment and RM statement.

Selection:

1. Based on academic achievement in all 30-level Mathematics and Calculus courses completed.

Career Profiles: Wages, Education, Prospects

Aircraft Mechanics and Aircraft Inspectors

Career Profiles provided by StudentScholarships.org

WHAT THEY DO

Aircraft mechanics perform some or all of the following duties:

- A. Inspect structural and mechanical systems of aircraft and ensure that these systems meet Transport Canada and company standards of performance and safety
- B. Inspect work of aircraft mechanics performing maintenance, repair and overhaul, or modification of aircraft and aircraft mechanical systems to ensure adherence to standards and procedures
- C. Maintain detailed repair, inspection and certification records and reports.
- D. Troubleshoot aircraft structural, mechanical or hydraulic systems to identify problems and adjust and repair systems according to specifications, technical drawings, manuals and established procedures
- E. Repair and overhaul aircraft structural, mechanical or hydraulic systems

WHERE THEY FIND WORK

1. Transportation and warehousing - 56.0%
2. Aerospace product and parts manufacturing - 28.0%
3. Public administration - 8.0%

WHAT EDUCATION DO YOU NEED

1. You usually need a college program in aircraft maintenance or a four-year apprenticeship program.
2. To be an aircraft mechanic, you need several years' on-the-job training.
3. To be an aircraft mechanic or inspector, who signs maintenance releases and certifies airworthiness, you also need an Aircraft Maintenance Engineer (AME) license issued by Transport Canada.
5. Trade certification for aircraft maintenance engineers is available, but voluntary, in the Northwest Territories.
6. Trade certification for aircraft structural technicians is available, but voluntary, in British Columbia.

HIGH SCHOOL SUBJECTS THAT WILL HELP

1. Math
2. Physics
3. Mechanics
4. Physical Education

WHAT CAN YOU MAKE

The average hourly wages for Aircraft Mechanics and Aircraft Inspectors is \$23.45/HR, which is above average for occupations in the trades, transport and equipment operators sector and above average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

5% of Aircraft Mechanics and Aircraft Inspectors are unemployed. This rate is close to the average for technical, professional, and skilled occupations.

Architects, Urban Planners and Land Surveyors

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

- A. Architects plan and develop designs for the construction/renovation of residential, commercial, institutional, and industrial buildings.
- B. Landscape architects develop landscape designs and oversee the landscaping of commercial projects, office complexes, parks, golf courses, and residences.
- C. Urban and land use planners prepare and recommend land development plans for urban/rural areas and remote regions.
- D. Land surveyors direct and conduct legal surveys to establish property boundaries, and prepare/maintain associated documents.

WHERE THEY FIND WORK

- 1. Architectural engineering and related services - 64.0%
- 2. Public administration - 19.0%
- 3. Construction - 6.0%
- 4. Administrative and support waste management and remediation

WHAT EDUCATION DO YOU NEED

- 1. To be an architect, you must have a professional architecture degree and two years' experience with a registered architect or studies from the Royal Architectural Institute of Canada syllabus program, and eight years' experience with a registered architect. You must register with your provincial/territorial association and pass the Architect Regulation examination. In Quebec, you must be a member of the professional corporation for architects.
- 2. To be an urban or land use planner, you need a bachelor's degree in urban/regional planning or a related field. You may also need a master's degree. In most cases you need to belong to the Canadian Institute of Planners and, in some provinces, you must belong to a provincial association.

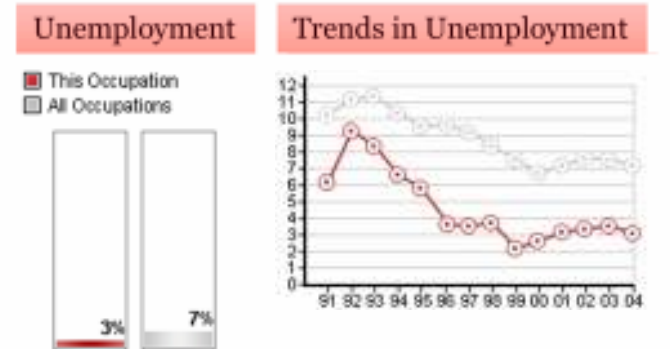

WHAT CAN YOU MAKE

The average hourly wages for Architects, Urban Planners and Land Surveyors is \$25.62/HR, which is close to the average for careers in the natural and applied sciences and close to the average for all professional occupations.

UNEMPLOYMENT

3% of Architects, Urban Planners and Land Surveyors are unemployed. This rate is close to the average for professional occupations.

HIGH SCHOOL SUBJECTS THAT WILL HELP

- 1. Math
- 2. English
- 3. Drafting
- 4. Computer-related courses

Auditors, Accountants and Investment Professionals

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

A. Financial Auditors and Accountants examine and analyze journal and ledger entries, bank statements, inventories, expenditures, tax returns and other accounting and financial record, documents and systems, of an individual, department, company or other establishment to ensure financial recording accuracy and compliance with established accounting standards, procedures and internal practices.

B. Financial Analysts evaluate financial risk, prepare financial forecasts, financing scenarios and other documents concerning capital management and write reports and recommendations.

C. Investment Analysts collect financial and investment information about companies, stocks, bonds and other investments using daily stock and bond reports, economic forecasts, trading volumes, financial periodicals, securities manuals, company financial statements and other financial reports and publications.

WHERE THEY FIND WORK

- E. Fit and install trim items, such as doors, stairs, moulding and hardware
- F. Maintain, repair and renovate residences and wooden structures in mills, mines, hospitals, industrial plants and other establishments
- H. Supervise apprentices and other construction workers

WHERE THEY FIND WORK

- 1. Construction - 80.0%
- 2. Wood product manufacturing - 3.0%
- 3. Furniture and related product manufacturing - 2.0%
- 4. Public administration - 2.0%
- 5. Educational services - 1.0%

WHAT EDUCATION DO YOU NEED

- 1. To gain trade certification as a carpenter, you usually need either a three- to four-year apprenticeship program, or a combination of over four years' work experience and some high school, college, or industry courses in carpentry.
- 2. Trade certification is compulsory in Quebec and available, but voluntary, in all other provinces/territories.
- 3. Qualified carpenters may also obtain interprovincial (Red Seal) trade certification, which provides job mobility throughout the country.
- 4. Most recent entrants have a trade/vocational certificate and almost 2 in 5 have a community college diploma.

WHAT CAN YOU MAKE

The average hourly wages for Carpenters is \$17.65/HR, which is close to the average for occupations in the trades, transport and equipment operators sector and close to the average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

11% of Carpenters are unemployed. This rate is close to the average for technical, professional, and skilled occupations.

HIGH SCHOOL SUBJECTS THAT WILL HELP

- 1. Math
- 2. Drafting
- 3. Woodworking

Civil Engineers

Career Profiles provided by StudentScholarships.org

WHAT THEY DO

Civil engineers perform some or all of the following duties:

- A. Conduct feasibility studies, economic analyses, municipal and regional traffic studies, environmental impact studies or other investigations
- B. Monitor air, water and soil quality and develop procedures to clean up contaminated sites
- C. Conduct technical analyses of survey and field data for development of topographic, soil, hydrological or other information and prepare reports
- D. Act as project or site supervisor for land survey or construction work
- E. Prepare contract documents and review and evaluate tenders for construction projects
- F. Supervise technicians, technologists and other engineers and review and approve designs, calculations and cost estimates.

WHERE THEY FIND WORK

1. Engineering consulting companies
2. Construction companies
3. All levels of government

WHAT EDUCATION DO YOU NEED

1. You need a university degree in civil engineering or in a related field of engineering.
2. You may also need a master's degree or doctorate in a related engineering field.
3. You need a license from a provincial/territorial association of professional engineers to approve engineering drawings/reports and to practice as a professional engineer (P. Eng.).
4. As an engineer, you are eligible for registration following graduation from an accredited educational program, after three or four years of supervised work experience in engineering, and after passing a professional practice examination.

HIGH SCHOOL SUBJECTS THAT WILL HELP

1. Math
2. English
3. Physics
4. Computer Courses

WHAT CAN YOU MAKE

The average hourly wages for Civil Engineers is \$29.79/HR, which is close to the average for occupations in the natural and applied sciences and related occupations and close to the average for all professional occupations.

UNEMPLOYMENT

2% of Civil Engineers are unemployed. This rate is close to the average for professional occupations.

Computer and Information Systems Managers

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Computer and information systems managers perform some or all of the following duties:

- A. Plan, organize, direct, control and evaluate the operations of information systems and electronic data processing (EDP) departments and companies
- B. Develop and implement policies and procedures for electronic data processing and computer systems operations and development
- C. Meet with clients to discuss system requirements, specifications, costs and timelines
- D. Assemble and manage teams of information systems personnel to design, develop, implement, operate and administer computer and telecommunications software, networks and information systems
- E. Control the budget and expenditures of the department, company or project
- F. Recruit and supervise computer analysts, engineers, programmers, technicians and other personnel and oversee their professional development and training.

WHERE THEY FIND WORK

1. Computer systems design and related services 34.0%
2. Information and cultural industries 12.0%
3. Public administration 9.0%
4. Wholesale trade 7.0%
5. Finance and insurance 6.0%

WHAT EDUCATION DO YOU NEED

1. You need a bachelor's or master's degree in computer science, business administration, commerce or engineering.
2. You also need several years' experience, including supervisory experience, in systems analysis, data administration, software engineering, network design or computer programming.
3. Many recent entrants have an undergraduate university degree, and almost 3 in 10 have a graduate degree.

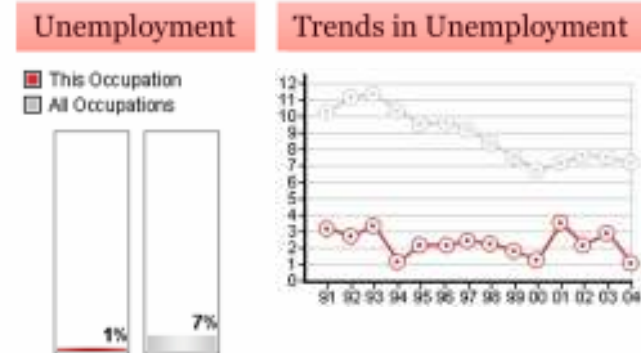

WHAT CAN YOU MAKE

Hourly wages of \$35.11 are above the national average of \$18.07. These earnings are above the average for occupations in the natural and applied sciences sector.

UNEMPLOYMENT

1% of Computer and Information Systems Managers are unemployed. This rate is close to the average for management occupations.

HIGH SCHOOL SUBJECTS THAT WILL HELP

1. Math
2. English
3. Physics
4. Computer Courses

Computer Engineers

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Computer Engineers perform some or all of the following duties:

- A. Research, evaluate and integrate network system and data communication hardware and software
- B. Assess, document and optimize the capacity and performance of information and communication system networks
- C. May lead and co-ordinate teams of design professionals in the development and integration of information and communication system architecture, hardware and software.
- D. Computer engineers may specialize in a number of areas including analog and digital signal processing, fibre optics, integrated circuits, lasers, microprocessors, microwaves and radio astronomy.
- E. Research, design, develop and integrate computer and telecommunications hardware such as microprocessors, integrated circuit boards and semiconductor lasers

WHERE THEY FIND WORK

1. Computer systems design and related services - 21.0%
2. Information and cultural industries - 18.0%
3. Computer and electronic product manufacturing - 17.0%
4. Wholesale trade - 7.0%
5. Scientific research and development services - 5.0%
6. Architectural engineering and related services - 5.0%

WHAT EDUCATION DO YOU NEED

1. You need a university degree in computer engineering, electrical engineering, engineering physics or computer science.
2. You may also need a master's degree or doctorate in a related engineering field.
3. You need a license from a provincial/territorial association of professional engineers to approve engineering drawings/reports and to practice as a professional engineer (P. Eng.).
4. As an engineer, you are eligible for registration following graduation from an accredited educational program, after three or four years of supervised work experience in engineering, and after passing a professional practice examination.

HIGH SCHOOL SUBJECTS THAT WILL HELP

1. Math
2. English
3. Business
4. Computer Science

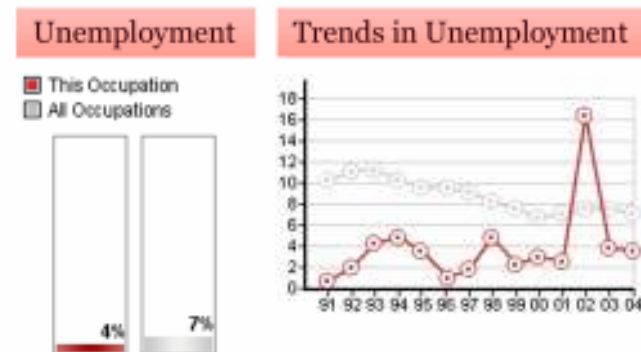

WHAT CAN YOU MAKE

The average hourly wages for Computer Engineers is \$35.15/HR, which is above average for occupations in the natural and applied sciences and related occupations and above average for all professional occupations.

UNEMPLOYMENT

4% of Computer Engineers are unemployed. This rate is close to the average for professional occupations.

Computer Network Technicians

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Computer network technicians perform some or all of the following duties:

- A. Conduct tests and perform security and quality controls
- B. Control and monitor e-mail use, Web navigation, and installed software
- C. Perform shell scripting or other basic scripting tasks
- D. May supervise other workers in this group.
- E. Maintain, troubleshoot and administer the use of local area networks (LANs), wide area networks (WANs), mainframe networks, computer workstations, connections to the Internet and peripheral equipment
- F. Evaluate and install computer hardware, networking software, operating system software and software applications
- G. Operate master consoles to monitor the performance of computer systems and networks and to co-ordinate access and use of computer networks

WHERE THEY FIND WORK

- 1. Computer systems design and related services - 18.0%
- 2. Information and cultural industries - 14.0%
- 3. Public administration - 11.0%
- 4. Finance and insurance - 8.0%
- 5. Educational services - 7.0%
- 6. Wholesale trade - 6.0%

WHAT EDUCATION DO YOU NEED

- 1. Completion of a college or other program in computer science, network administration, Web technology or a related field is usually required.
- 2. Certification or training provided by software vendors may be required by some employers.
- 3. Most recent entrants have a community college diploma.

WHAT CAN YOU MAKE

The average hourly wages for Computer Network Technicians is \$22.94/HR, which is below average for occupations in the natural and applied sciences and related occupations and above average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

4% of Computer Network Technicians are unemployed. This rate is close to the average for technical, professional, and skilled occupations.

HIGH SCHOOL SUBJECTS THAT WILL HELP

- 1. Math
- 2. Computer Courses

Computer Programmers

Career Profiles provided by StudentScholarships.org

WHAT THEY DO

Computer programmers perform some or all of the following duties:

- A. Program animation software to predefined specifications for interactive CDs, DVDs, video game cartridges and internet-based applications
- B. Program special effects software for film and video applications
- C. Write, modify, integrate and test software code for e-commerce and other Internet applications
- D. Assist in the collection and documentation of user's requirements
- E. Assist in the development of logical and physical specifications
- F. May lead and co-ordinate teams of interactive media developers
- G. May research and evaluate a variety of interactive media software products.

WHERE THEY FIND WORK

- 1. Computer systems design and related services - 41.0%
- 2. Information and cultural industries - 10.0%
- 3. Finance and insurance - 8.0%
- 4. Public administration - 7.0%
- 5. Wholesale trade - 4.0%
- 6. Computer and electronic product manufacturing - 4.0%

WHAT EDUCATION DO YOU NEED

- 1. A bachelor's degree in computer science or in another discipline with a significant programming component or Completion of a college program in computer science is usually required.
- 2. Specialization in programming for engineering and scientific applications requires specific post-secondary study or experience.
- 3. Almost 2 in 5 have an undergraduate university degree.

HIGH SCHOOL SUBJECTS THAT WILL HELP

- 1. Math 2. Business 3. Computer Courses 4. Electronics

WHAT CAN YOU MAKE

The average hourly wages for Computer Programmers and Interactive Media Developers is \$26.56/HR, which is close to the average for occupations in the natural and applied sciences and related occupations and close to the average for all professional occupations.

UNEMPLOYMENT

4% of Computer Programmers and Interactive Media Developers are unemployed. This rate is above the average for professional occupations.

Concrete Finishers

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Concrete finishers perform some or all of the following duties:

- A. Repair, resurface and replace worn or damaged sections of floors, walls, roads and other concrete structures.
- B. Check formwork, granular base and steel reinforcement materials and direct placement of concrete into forms or onto surfaces according to grade
- C. Fill hollows and remove high spots to smooth freshly poured concrete
- D. Operate power vibrator to compact concrete
- E. Level top surface of concrete according to grade and depth specifications using straightedge or float
- F. Impart desired finish to concrete surfaces using hand and power tools
- G. Install anchor bolts, steel plates, door sills and other fixtures in freshly poured concrete

WHERE THEY FIND WORK

- 1. Construction - 89.0%

WHAT EDUCATION DO YOU NEED

- 1. Completion of secondary school is usually required.
- 2. Completion of a two- to four-year apprenticeship program
- 3. Trade certification is compulsory in Quebec and available, but voluntary, in all other provinces.
- 4. Red Seal, an interprovincial trade certification, is also available to qualified concrete finishers.

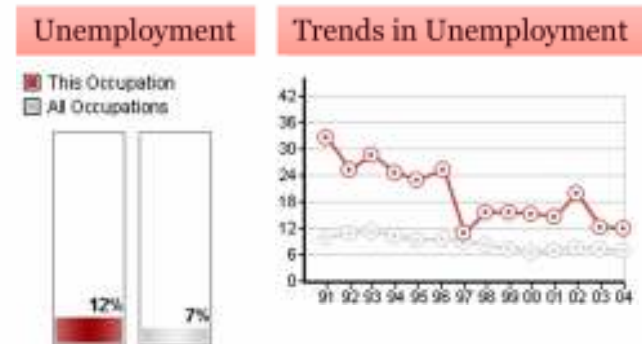

WHAT CAN YOU MAKE

The average hourly wages for Concrete Finishers is \$19.67/HR, which is close to the average for occupations in the trades, transport and equipment operators sector and close to the average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

12% of Concrete Finishers are unemployed. This rate is close to the average for technical, professional, and skilled occupations.

HIGH SCHOOL SUBJECTS THAT WILL HELP

- 1. Math 2. Physical Education 3. Sciences 4. Industrial Arts

Construction Managers

Career Profiles provided by StudentScholarships.org

WHAT THEY DO

Construction managers perform some or all of the following duties:

- A. Hire and supervise the activities of subcontractors and subordinate staff.
- B. Plan, organize, direct, control and evaluate construction projects from start to finish according to schedule, specifications and budget
- C. Prepare and submit construction project budget estimates
- D. Plan and prepare construction schedules and milestones and monitor progress against established schedules
- E. Prepare contracts and negotiate revisions, changes and additions to contractual agreements with architects, consultants, clients, suppliers and subcontractors
- F. Develop and implement quality control programs
- G. Represent company on matters such as business services and union contracts negotiation

WHERE THEY FIND WORK

1. Construction - 83.0%
2. Architectural engineering and related services - 3.0%

WHAT EDUCATION DO YOU NEED

1. You usually need a university degree in civil engineering or a college diploma in construction technology as well as several years' experience in construction, including time spent as a construction supervisor or field superintendent.
2. You may need a master's degree in project management.
3. If you have extensive experience in the construction industry, you may not need a college or university education.
4. Some employers may require you to have professional engineering status or construction trade certification.
5. Many recent entrants have a community college diploma, and almost 2 in 5 have a undergraduate university degree.

HIGH SCHOOL SUBJECTS THAT WILL HELP

1. English
2. Business
3. Woodworking

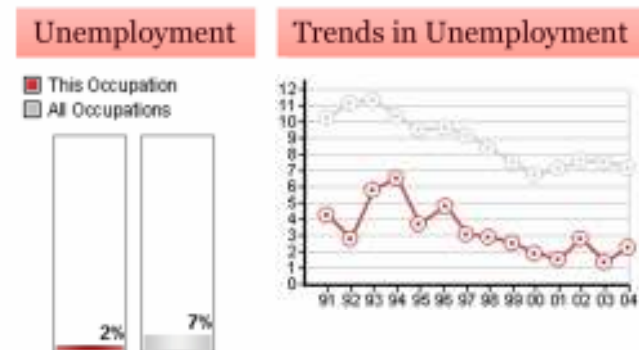

WHAT CAN YOU MAKE

Hourly wages are \$29.28, which is above the national average of \$18.07. These earnings are close to the average for occupations in the trades, transport and equipment sector.

UNEMPLOYMENT

2% of Construction Managers are unemployed. This rate is close to the average for management occupations.

Crane Operators

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Crane operators perform some or all of the following duties:

- A. Operate cranes mounted on boats or barges to lift, move and place equipment and materials
- B. Operate dragline cranes to expose coal seams and ore deposits at open pit mines
- C. May assemble tower cranes on site
- D. Perform routine maintenance work such as cleaning and lubricating cranes.
- E. Operate mobile and tower cranes to lift, move, position or place equipment and materials
- F. Perform pre-operational inspection, and calculate crane capacities and weight to prepare for rigging and hoisting
- G. Operate pile driving cranes to drive pilings into earth to provide support for buildings and other structures

WHERE THEY FIND WORK

- 1. Construction - 30.0%
- 2. Primary metal manufacturing - 25.0%
- 3. Wholesale trade - 8.0%
- 4. Transportation and warehousing - 6.0%
- 5. Fabricated metal product manufacturing - 6.0%

WHAT EDUCATION DO YOU NEED

- 1. Completion of secondary school is usually required.
- 2. Completion of a one- to three-year apprenticeship program or High school, college or industry courses in crane operating are usually required.
- 3. Trade certification as a hoist operator is compulsory in Quebec and available, but voluntary, in Saskatchewan.
- 4. Boom truck crane operator trade certification is compulsory in Manitoba and Alberta and available, but voluntary, in Saskatchewan, British Columbia and the Northwest Territories.
- 5. Mobile crane operator (8-15 tons) trade certification is compulsory in Ontario and available, but voluntary, in New Brunswick.

HIGH SCHOOL SUBJECTS THAT WILL HELP

- 1. Math 2. English 3. Mechanics 4. Machine Shop

WHAT CAN YOU MAKE

The average hourly wages for Crane Operators is \$21.59/HR, which is close to the average for occupations in the trades, transport and equipment operators sector and close to the average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

7% of Crane Operators are unemployed. This rate is close to the average for technical, professional, and skilled occupations.

Dental Assistants

Career Profiles provided by StudentScholarships.org

WHAT THEY DO

Dental assistants perform some or all of the following duties:

- A. Polish teeth and clinical crowns and apply fluoride and sealant
- B. Take preliminary impressions for diagnostic casts
- C. Fabricate temporary crowns and restorations.
- D. Prepare patients for dental examination and assist the dentist during the examination
- E. Sterilize and maintain instruments and equipment
- F. Prepare dental instruments and filling materials
- G. Educate patients concerning oral hygiene

WHERE THEY FIND WORK

- 1. Health care and social assistance - 96.0%

WHAT EDUCATION DO YOU NEED

- 1. Completion of a three-month to one-year college or other program in dental assistance or Completion of secondary school with on-the-job training is required.
- 2. Licensing is not mandatory, but is required to perform intra-oral duties in all provinces except Quebec.
- 3. Most recent entrants have a community college diploma and almost 3 in 10 have a trade/vocational certificate.

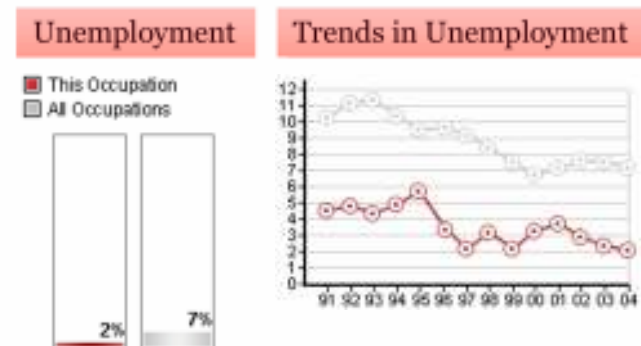

WHAT CAN YOU MAKE

The average hourly wages for Dental Assistants is \$16.51/HR, which is below to the average for occupations in the health sector and close to the average for all intermediate occupations.

UNEMPLOYMENT

2% of Dental Assistants are unemployed. This rate is below the average for intermediate occupations.

HIGH SCHOOL SUBJECTS THAT WILL HELP

- 1. Word and Excel
- 2. English
- 3. Sciences
- 4. Health

Editors

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Editors perform some or all of the following duties:

- A. Editors may specialize in a particular subject area, such as news, sports or features, or in a particular type of publication, such as books, magazines, newspapers or manuals.
- B. Evaluate suitability of manuscripts, articles, news copy and wire service dispatches for publication, broadcast or electronic media and recommend or make changes in content, style and organization
- C. Read and edit copy to be published or broadcast to detect and correct errors in spelling, grammar and syntax, and shorten or lengthen copy as space or time requires
- D. Confer with authors, staff writers, reporters and others regarding revisions to copy
- E. Plan and implement layout or format of copy according to space or time allocations and significance of copy
- F. Plan and co-ordinate activities of staff and assure production deadlines are met

WHERE THEY FIND WORK

- 1. Information and cultural industries - 65.0%
- 2. Public administration - 7.0%
- 3. Administrative - 6.0%

WHAT EDUCATION DO YOU NEED

- 1. You usually need a bachelor's degree in English, French, journalism or a related field.
- 2. You usually need several years' experience in journalism, writing, publishing or a related field and may require membership in the Editors Association of Canada.
- 3. With experience, you may move up the ranks to become a supervisor or manager, such as editor-in-chief or managing editor.
- 4. Most recent entrants have an undergraduate university degree.

WHAT CAN YOU MAKE

The average hourly wages for Editors is \$23.54/HR, which is above average for occupations in the art, culture, recreation and sport sector and is close to the average for all professional occupations.

UNEMPLOYMENT

4% of Editors are unemployed. This rate is above the average for professional occupations.

Electrical and Electronics Engineers

Career Profiles provided by StudentScholarships.org

WHAT THEY DO

A. Electrical and electronics engineers may specialize in a number of areas including electrical design for residential, commercial or industrial installations, electrical power generation and transmission, and instrumentation and control systems.

B. Conduct research into the feasibility, design, operation and performance of electrical generation and distribution networks, electrical machinery and components and electronic communications, instrumentation and control systems, equipment, and components

C. Prepare material cost and timing estimates, reports and design specifications for electrical and electronic systems and equipment

D. Design electrical and electronic circuits, components, systems and equipment

E. Supervise and inspect the installation, modification, testing and operation of electrical and electronic systems and equipment

WHERE THEY FIND WORK

1. Computer and electronic product manufacturing - 18.0%
2. Architectural engineering and related services - 17.0%
3. Utilities - 16.0%
4. Information and cultural industries - 7.0%
5. Electrical equipment manufacturing - 6.0%

WHAT EDUCATION DO YOU NEED

1. You need a university degree in electrical or electronics engineering or in a related field of engineering.
2. You may also need a master's degree or doctorate in a related engineering field.
3. You need a license from a provincial/territorial association of professional engineers to approve engineering drawings/reports and to practice as a professional engineer (P. Eng.).
4. As an engineer, you are eligible for registration following graduation from an accredited educational program, after three or four years of supervised work experience in engineering, and after passing a professional practice examination.

HIGH SCHOOL SUBJECTS THAT WILL HELP

1. Math
2. English
3. Sciences
4. Electronics

WHAT CAN YOU MAKE

The average hourly wages for Electrical and Electronics Engineers is \$33.48/HR, which is above average for occupations in the natural and applied sciences and related occupations and above average for all professional occupations.

UNEMPLOYMENT

2% of Electrical and Electronics Engineers are unemployed. This rate is close to the average for professional occupations.

Electricians

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Electricians perform some or all of the following duties:

- A. Conduct preventive maintenance programs and keep maintenance records.
- B. Read and interpret drawings, circuit diagrams and electrical code specifications to determine wiring layouts for new or existing installations
- C. Pull wire through conduits and through holes in walls and floors
- D. Install brackets and hangers to support electrical equipment
- E. Install, replace and repair lighting fixtures and electrical control and distribution equipment, such as switches, relays and circuit breaker panels
- F. Splice, join and connect wire to fixtures and components to form circuits
- G. Test continuity of circuits using test equipment to ensure compatibility and safety of system, following installation, replacement or repair

WHERE THEY FIND WORK

- 1. Construction - 72.0%
- 2. Other services (except public administration) - 3.0%
- 3. Public administration - 3.0%

WHAT EDUCATION DO YOU NEED

- 1. You usually need a four- to five-year apprenticeship program.
- 2. Trade certification is compulsory for construction electricians in all provinces/territories except Manitoba. It is available, but voluntary, in Manitoba.
- 3. Trade certification is compulsory for domestic and rural electricians in Ontario and Quebec. It is available, but voluntary, in Newfoundland.
- 4. According to the International Brotherhood of Electrical Workers, you need a Construction and Maintenance License.

WHAT CAN YOU MAKE

The average hourly wages for Electricians is \$20.92/HR, which is close to the average for occupations in the trades, transport and equipment operators sector and close to the average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

9% of Electricians are unemployed. This rate is close to the average for technical, professional, and skilled occupations.

HIGH SCHOOL SUBJECTS THAT WILL HELP

- 1. Math

Firefighters

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Firefighters perform some or all of the following duties:

- A. May participate as members of a trauma or emergency response team and provide para-medical aid to accident victims or ill persons
- B. May supervise and co-ordinate the work of other firefighters.
- C. Respond to fire alarms and other calls for assistance, such as automobile and industrial accidents, bomb threats and other emergencies
- D. Rescue victims from burning buildings and accident sites
- E. Control and extinguish fires using manual and power equipment, such as axes, water hoses, aerial ladders and hydraulic equipment and various firefighting chemicals
- F. Administer first aid and other assistance

WHERE THEY FIND WORK

- 1. Public administration - 94.0%

WHAT EDUCATION DO YOU NEED

- 1. To be a firefighter, you usually need a high school diploma and a college program in fire protection technology or a related program. You must pass physical agility, strength, fitness, and vision requirements. Previous experience as a volunteer firefighter may also be an advantage.
- 2. Training courses in firefighting and emergency medical care are provided, and vary in length depending on the different fire department requirements.
- 3. An apprenticeship training program for firefighters and voluntary trade certification is available in New Brunswick.
- 4. To be a senior firefighter, such as a lieutenant or captain, you need several years of experience.
- 5. Most recent entrants have a community college diploma, and almost 3 in 10 have a trade/vocational certificate.

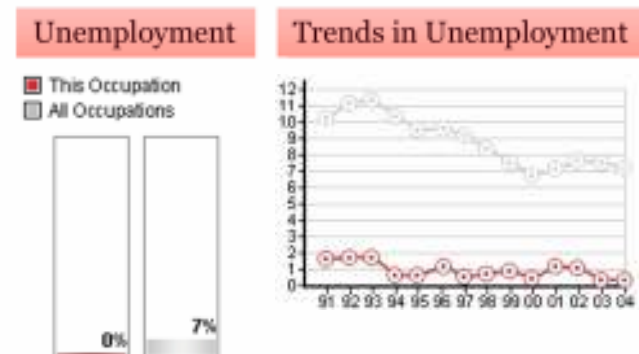

WHAT CAN YOU MAKE

The average hourly wages for Firefighters is \$24.47/HR, which is above average for occupations in the sale and service sector and is above average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

0% of Firefighters are unemployed. This rate is below the average for technical, professional, and skilled occupations.

Graphic Designers and Illustrators

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Graphic designers perform some or all of the following duties:

- A. Supervise other graphic designers or graphic arts technicians.
- B. Co-ordinate sub-contracting
- C. Work in a multidisciplinary environment
- D. Determine the medium best suited to produce the desired visual effect and the most appropriate vehicle for communication
- E. Develop the graphic elements that meet the clients' objectives
- F. Prepare sketches, layouts and graphic elements of the subjects to be rendered using traditional tools, multimedia software and image processing, layout and design software

WHERE THEY FIND WORK

- 1. Specialized design services - 31.0%
- 2. Information and cultural industries - 14.0%
- 3. Retail trade - 14.0%
- 4. Printing and related support activities - 10.0%
- 5. Advertising and related services - 10.0%
- 6. Computer systems design and related services - 5.0%

WHAT EDUCATION DO YOU NEED

- 1. You must have a high school diploma and creative ability as demonstrated by a portfolio of your work.
- 2. You usually need a university degree in visual arts with a specialization in graphic design, commercial art, graphic communications or cartooning, or a college/other program in graphic arts. As an illustrator, you may also need additional training in your area of specialization.
- 3. You may need experience or training in multimedia design at a college/post-secondary or technical institution.
- 4. With experience, you may move up the ranks to become a manager or senior designer.
- 5. Most recent entrants have a community college diploma.

HIGH SCHOOL SUBJECTS THAT WILL HELP

- 1. English 2. Computer Courses 3. Graphic Design 4. Art

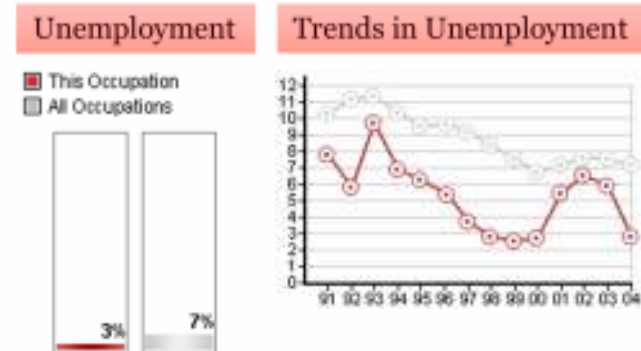

WHAT CAN YOU MAKE

The average hourly wages for Graphic Designers and Illustrators is \$19.00/HR, which is close to the average for occupations in the art, culture, recreation and sport sector and is close to the average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

3% of Graphic Designers and Illustrators are unemployed. This rate is close to the average for technical, professional, and skilled occupations.

Heavy-Duty Equipment Mechanics

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

Heavy-duty equipment mechanics perform some or all of the following duties:

- A. Heavy-duty and farm equipment mechanics may specialize in specific types of machinery such as combines or tracked vehicles, or in engine overhaul, power shift transmissions, fuel injection, hydraulics or electronics.
- B. Check bulldozers, cranes, graders and other heavy construction, agricultural, logging and mining equipment for proper performance and inspect equipment to detect faults and malfunctions
- C. Diagnose faults or malfunctions using computerized and other testing equipment to determine extent of repair required
- D. Adjust equipment and repair or replace defective parts, components or systems, using hand and power tools
- E. Test repaired equipment for proper performance and to ensure that work meets manufacturers' specifications

WHERE THEY FIND WORK

1. Wholesale trade - 22.0%
2. Other services (except public administration) - 17.0%
3. Construction - 10.0%
4. Transportation and warehousing - 10.0%
5. Mining (except oil and gas) - 7.0%
6. Farms - 4.0%

WHAT EDUCATION DO YOU NEED

1. To gain trade certification, you usually need either a three- to five-year apprenticeship program or a combination of over four years' work experience in the trade and some high school, college or industry courses in heavy equipment repair.
2. Heavy-duty equipment mechanic trade certification is compulsory in Quebec and Alberta and available, but voluntary, in all other provinces/territories.
3. Farm equipment mechanic trade certification is available, but voluntary, in all provinces except Quebec and the territories.
4. Heavy equipment and farm equipment mechanics may obtain interprovincial (Red Seal) trade certification, which provides job mobility throughout the country.

HIGH SCHOOL SUBJECTS THAT WILL HELP

1. Math
2. English
3. Mechanics
4. Industrial Arts

WHAT CAN YOU MAKE

The average hourly wages for Heavy-Duty Equipment Mechanics is \$20.21/HR, which is close to the average for occupations in the trades, transport and equipment operators sector and close to the average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

4% of Heavy-Duty Equipment Mechanics are unemployed. This rate is close to the average for technical, professional, and skilled occupations.

Industrial Electricians

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

- A. Read and interpret drawings, blueprints, schematics and electrical code specifications to determine layout of industrial electrical equipment installations
- B. Install, examine, replace or repair electrical wiring, receptacles, switch boxes, conduits, feeders, fibre-optic and coaxial cable assemblies, lighting fixtures and other electrical components
- C. Test electrical and electronic equipment and components for continuity, current, voltage and resistance
- D. Maintain, repair, install and test switchgear, transformers, switchboard meters, regulators and reactors, electrical motors, generators, alternators, industrial storage batteries and hydraulic and pneumatic electrical control systems

WHERE THEY FIND WORK

- 1. Construction - 23.0%
- 2. Paper manufacturing - 8.0%
- 3. Primary metal manufacturing - 8.0%
- 4. Mining (except oil and gas) - 6.0%
- 5. Transportation and warehousing - 5.0%
- 6. Wood product manufacturing - 5.0%
- 7. Motor vehicle manufacturing - 4.0%

WHAT EDUCATION DO YOU NEED

- 1. To gain trade certification, you usually need either a four- or five-year industrial electrician apprenticeship program or a combination of over five years' work experience and some high school, college or industry courses in industrial electrical equipment.
- 2. Trade certification is compulsory in Prince Edward Island, Quebec and the Yukon. It is available, but voluntary, in Newfoundland, Nova Scotia, New Brunswick, Ontario, and Manitoba.
- 3. According to the International Brotherhood of Electrical Workers, electricians in Canada require a Construction and Maintenance License.

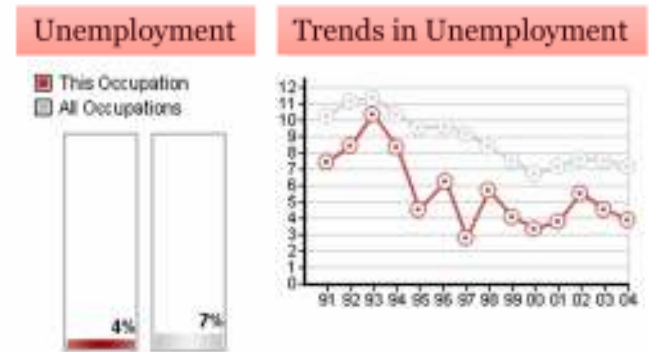

WHAT CAN YOU MAKE

The average hourly wages for Industrial Electricians is \$24.32/HR, which is above average for occupations in the trades, transport and equipment operators sector and above average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

4% of Industrial Electricians are unemployed. This rate is close to the average for technical, professional, and skilled occupations.

WHAT CAN YOU MAKE

The average hourly wages for Information Systems Analysts and Consultants is \$29.45/HR, which is close to the average for occupations in the natural and applied sciences and related occupations and close to the average for all professional occupations.

UNEMPLOYMENT

3% of Information Systems Analysts and Consultants are unemployed. This rate is close to the average for professional occupations.

Instructors and Teachers of Persons with Disabilities

Career Profiles provided by **StudentScholarships.org**

WHAT THEY DO

- A. Instruct students who are blind or visually impaired in reading and writing Braille and in the use of special equipment
- B. Instruct students who are deaf or hearing impaired in lip-reading, finger spelling and sign language, according to individual communication needs
- C. Instruct students who are hearing impaired in formation and development of sounds for speech using hearing aids and other devices
- D. Instruct individuals with physical disabilities and their families in the use of rehabilitative techniques, prosthetic devices, wheelchairs and other equipment designed to minimize the effects of a disability
- E. Assist individuals with intellectual impairments and physical disabilities to develop life skills, and provide job training and support.

WHERE THEY FIND WORK

1. Health care and social assistance - 50.0%
2. Educational services - 45.0%

WHAT EDUCATION DO YOU NEED

1. To work as an instructor or teacher of persons with disabilities, you usually need a bachelor's degree in special education or a related field such as psychology or social work. In some instances, a community college diploma and appropriate experience may replace a university education.
2. You must finish an appropriate training program in rehabilitation or special education.
3. To be a teacher working in public schools, you need a provincial/territorial teaching certificate.
4. To be an instructor of persons who are blind, you need certification by the Canadian National Institute for the Blind.
5. Many recent entrants have a community college diploma, and almost 2 in 5 have an undergraduate university degree.

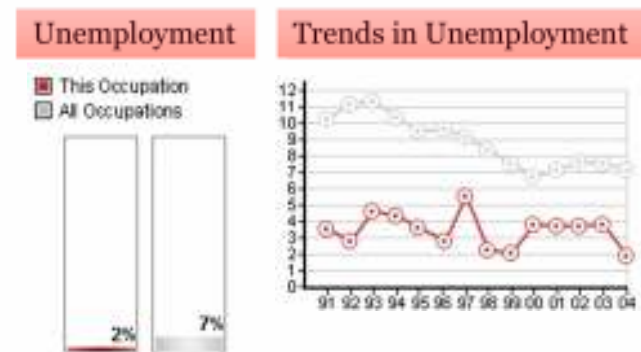

WHAT CAN YOU MAKE

The average hourly wages for Instructors and Teachers of Persons with Disabilities is \$23.40/HR, which is close to the average for occupations in the social science, education, government service and religion and above average for all technical, professional, and skilled occupations.

UNEMPLOYMENT

2% of Instructors and Teachers of Persons with Disabilities are unemployed. This rate is close to the average for technical, professional, and skilled occupations.
